

### From the desk of the Founder Maharaj:

As Swami Vivekananda says, 'Education is the Manifestation of Perfection Already in Man', it is clear to us why education is so important in the perspective of our present time. As Tagore says 'Where the mind is without fear / Where the head is held high', we know that in this 21<sup>st</sup> century, especially judging the contemporary instability of time we may say that we are in need of a new generation charged with mental courage, moral strength. Only then Tagore's 'heaven of freedom' can be reached. Education is the light, the arms and the material that will produce such a generation.

So to make the students/ the youth/ the buds of humanity strong enough to fight against all the odds to make their generation a revolutionary one, we need highly trained teachers. Teachers are the clouds that bring forth the shower of knowledge to quench the thirst of ignorance. They are the peasants who sow the seeds of knowledge to reap the golden crop called 'man'.

In this college not only some mere graduates or post-graduates will be trained to be professional teachers but those will be trained who are ready to give in their last drop of energy in the holy pyre of spreading education.

With the growing development of technology we are getting reduced in our moral, human values. We are unknowingly going far ahead our own root & soul. Ignorantly our new generation is swallowing materialistic culture keeping aside the principles of mass-welfare & spiritual realization. It can be reverently said that the temporary glow of materialistic lifestyle is creating a hallucination before us and forcing us to enter into the world of narrow thoughts.

So the new generation should be taught a proper assimilation of western technology and our traditional values added with the spiritual realizations of 'Bhagavad Gita', 'Vedanta', 'Upanishada'. The B.Ed. degree holders of this college will prove that that self-less service to man is the only way to salvation. They will teach not only professionally but also enthusiastically, inspiringly.

### About the College:

The college, with a difference, has been established based on the founder maharaj ji's ideals of education that stands for integration, peace, quest for the infinite truth & bliss, with the aim of being one of the most promising B.Ed. colleges of West Bengal. It is recognized by N.C.T.E and affiliated to West Bengal State University. Being attached to the "ashramic" atmosphere of Sankar Vedanta Math & Mission the well infrastructural campus is there in a meditative & brooding surrounding set before the green background of scenic beauty and natural landscape with the brew of a semi-urban climate. Students are assured to get the scope not only to pursue their academics attentively but also to nurture their thoughts and intellectual growth enlightenedly, peacefully. They will closely witness the social activities of the philanthropic trust beside their syllabus oriented curriculum and may enrich their experience additionally by working for the grass-root level of the society. Beside this they may also sharpen their knowledge on their social responsibility.

Hence the college is born to contribute to bring a small change towards the betterment and mass-welfare of the society by spreading the true spirit & essence of education.

### Vision:

The vision of the college is to meet the growing need for efficient and committed teacher to make education accessible to all irrespective of caste, creed and any other narrow walls

### Mission:

The college has set its mission

- To shape the institute as a mini-knowledge hub and to contribute to the need of our country by imparting value oriented education.
- To mould the teachers who are guided by the social & ethical responsibility to the students and wider society to be creative and reflective in designing and assessing class room performance.

### Future Prospects:

It is a future plan to make an educational hub centering the college judging its well infrastructure, sylvan atmosphere and being easily connected to the main part of the city of Kolkata. Our future plans are -

- To introduce DI.Ed, M.Ed. & B.Ed. (special education) as soon as possible.
- To establish a secondary residential boys' school that will follow the tradition of 'Gurukul Vidya'
- To establish an orphanage.
